

MORE TROOPS ARE RUSHED  
TO AID OF GEN. FUNSTON  
ON THE MEXICAN BORDER

Washington, August 14.—Late today the war department at the request of Major General Funston ordered one regiment of infantry from Texas City to Brownsville and also ordered one aeroplane, one battery of 4.7 guns and one battery of 4.7 howitzers to Brownsville from Fort Sill, Okla.

Major John Bell, commanding at Texas City, will select the infantry regiment; the commander at Fort Sill will choose the batteries. Although first reports today indicated no more forces would be sent to Brownsville, later developments evidently convinced General Funston of the need of more protection for the

border line threatened by Mexican raiders.

Assistant Secretary Breckenridge said that the new orders were issued because of General Funston's desire that the garrison at Brownsville be strengthened.

"The howitzers have been sent," said Mr. Breckenridge, "as they are the best weapons to use against marauders who may be hiding in the hills because of their high angle fire. General Funston feels that there should be a stronger force at Brownsville, where there has been so much difficulty. He did not report any new development."

## First of Many.

W. L. Brown, a popular druggist, who has recently recovered from a serious illness, is going to be in the race for Probate Judge next time, and from the way he talks he is confident of making a successful race. There is a long list of others, whom the public expects will be in the contest. These "possibilities" are keeping quiet at this time, but will no doubt make known their intentions soon. One well known man, and there may be others, has signified his intention of announcing at an early date. It is rumored that W. A. Brown, Clerk of the Circuit Court, will present his claims to the people for the office of Probate Judge. For that matter, Dame Rumor has picked out lots of people as possible candidates. This list includes Mayor Joe Baker, Judge A. C. Crawford, A. Y. Malone, John Sanders, S. W. Burkett, Bud Barnes, W. A. Brown, W. L. Brown, Crate Pilcher, and then some. Talk has it that Dick Dawsey will offer for the place on the Republican ticket, the rest of the aforementioned "possibilities" being Democrats.

## Fine Horse Arrives.

Directum Heir, bay stallion, foaled May 10, 1912, and bought from the famous Savage farm by John H. Crawford, a well known young man of this city, arrived last night. Mr. Crawford says he is greatly pleased with the horse, and that he came up to his expectations in every respect. The horse has a pedigree and is registered as No. 59046, Vol. 20, American Trotting Register. Directum Heir will be ready for service at the Fair grounds in two weeks.

## Bigger Than Jack.

This morning a remarkable specimen of a negro was seen on Foster Street, and he attracted a great deal of attention wherever he went. He is 7 feet 11 inches tall and wears a special made-to-order 23 shoe. The negro, aside from his tallness, has a huge frame and is stout. He was ad-

vertising a well known product. While his remarkable physique enables him to draw a salary with an advertising firm, he has his troubles. For instance he says he rarely ever has an opportunity to sit down but what some white man will say, "Nigger, stand up; I want to see how tall you are." This negro is one of the first of the early Fall crop of curiosities, but more will probably be along later in the season.

## Dipping Vats.

Dipping vats are becoming popular in this county, which goes to show that farmers are directing more attention towards the cattle industry. L. J. Thompson, of Taylor, farm demonstration agent for this county, was in town this morning en route to the farm of W. W. Eddins, near Crosby, where he is going to superintend the construction of a dipping vat. These vats will be placed later at Madrid and other points in the county.

ABOUT THE  
CAPITOL

No one is able to say yet just how long the Legislature will stay in session. Some who thought a while that a recess would be taken, are now doubtful, owing to the press of many local bills which haven't been put through yet. However, during the present week, so many bills may be passed till the leaders will see their way clear to hold a part of the session till next year.

The Governor doesn't want the session split. It bothers his proposed bond issue in the first place and then there is never no telling what the legislature will do with reference to some other things.

The Governor held a conference last week with sixteen or eighteen members of the legislature to talk over some matters with them. Among other things he took occasion to say, that "So far, the Legislature hasn't passed any laws, nor had it under consideration so far as he knew, any laws that the people expected it to pass." The members present were men he thought friendly to his views, and there wasn't a man among them who dared to ask the Governor to make some specific suggestion as to legislation he thought should be passed. He has time and again criticized the Legislature for its failure to give the people relief; he has written many messages to the body, and yet not one line in any of them, picks out some one thing for the body to do, outside the bond issue, and that's been done as he wanted it.

Over in the House last week, when the Governor's convict measure was up, Shapiro of Birmingham, dug up a letter the Governor had written one of the Trade Councils of Birmingham, in which the Governor, as a candidate, thought the convicts should be taken from the mines. Shapiro thought it strange that the Governor of Alabama should now take such a different view of the matter, and expressed a wish that he could have always remained a "Candidate for Governor."

The fight on the convict measure in the House Saturday didn't come to a close. The leaders on both sides were afraid to submit it to a vote, as many of the members had absented themselves from the house late in the afternoon. Both sides claim a victory, but by a small majority. They don't think there will be more than half a dozen either way. What the Senate will do, is still an unknown quantity, as the question hasn't been so hotly discussed over there yet.

The bill creating the board of revenue for Houston county passed the House Saturday, and the bill abolishing the office of treasurer of Houston county, has also passed, and will be effective when the present incumbent's time expires. The board of revenue is effective on approval of

The cotton warehouse bill will likely come up this week. There is some opposition. Senator Lusk says that the bill abolishing the landlord's lien on the cotton, but the framers of the bill don't think so. It may be passed with an amendment.

FATS AND LEANS  
TO PLAY AGAIN

The Fats and Leans are going to "cross bats" again tomorrow afternoon, the Leans being dislodged with the two previous defeats administered by the heavy weights. The game will start on Baker Field at 4 o'clock.

The Leans won't stay conquered. They have been defeated twice by their heavier brethren, but they believe that with one more opportunity what they will do to the Fats will be ample.

KINGSTON, JAMAICA  
WRECKED BY STORM

Kingston, Jamaica, Aug. 14.—A large portion of the north side of Kingston has been washed away by heavy seas and tidal waves. Hundreds of persons have been rendered homeless, houses and wharves demolished and banana plantations have suffered greatly. Many persons have been killed, but an estimate of the number cannot now be made.

All along the central districts of the north coast fruit plantations were almost completely wrecked by the disastrous storm which swept Jamaica yesterday.

At Port Maria scarcely a banana tree was left standing. Four lives were lost at Buff Bay, where wharves and fruit houses were wrecked and several public buildings unroofed.

The work of repairing telegraph and telephone wires in the northeastern section of the island is progressing, but it will be impossible to learn the details regarding the damage done by the storm until communication is restored.

ALLIES SAY RUSSIAN  
SITUATION IMPROVES

London, Aug. 14.—With an apparent improvement of the Russian situation on the eastern front, there are renewed expressions of confidence in the allied countries. The Russians claim they are driving the Germans back from Riga and west of Dvinsk and still are keeping them away from Kovno.

Although the Teutons continue their advance in the south and southwest, the absence from official reports of any mention of the capture of guns or munitions indicates that the positions now being occupied by the invaders all had been evacuated before their arrival.

Von Mackensen has resumed his advance between the Vepz and the Bug, after having been delayed several days by Russian counter attacks.

The outcome of these movements probably will be indicated within a few days, whether Grand Duke Nicholas would be able to resume the offensive along the new front or will concentrate his energies in rear guard fighting during a slow retirement.

German correspondents say the Russians are following the tactics of the Napoleonic campaign laying waste the country so that the advancing Germans find in the smoking ruins the same lack of shelter as when Napoleon marched to Moscow.

The only important news from the western front is a German claim of another local success in the Argonne. This claim finds no confirmation in the French report, which declares all attacks were repulsed.

Mrs. W. C. Fritter has returned from Panama City, where she spent several weeks. Mrs. Fritter was accompanied home by her daughter, Mrs. A. A. Payne.

BRITISH LAND  
MORE MEN IN  
BARRICADES

Paris, Aug. 14.—An official communication given out by the French war office this afternoon reads:

"On the Gallipoli peninsula British forces, since Aug. 8, have been debarking successfully at a point near the Bay of Suvla, on the west side of the peninsula. They have made progress at a point further to the north, in the vicinity of Cape Tepe. Here after some severe fighting, these forces were successful in gaining a footing on the slopes of the height of Sari Bair. They took more than 650 prisoners and captured nine machine guns. The operations at this point continue to progress. At the south end of the peninsula the efforts of the Turks to penetrate our lines all resulted in failure."

"On Aug. 7 we made some slight progress. Since this date the activity on the French front has consisted mainly in artillery fighting, with marked advantage for our batteries."

It was reported that a party of negroes were gambling in a box car on a spur track between the Bay Lane and Central railroads Sunday afternoon about 3 o'clock, and policemen and deputy sheriffs hastened to the scene. The negroes, however, had probably got wind of the approach of the officers, and they beat a hasty retreat, all of them escaping.

## LITTLE TALKS ON THRIFT.

(By H. W. Strauss, President American Society for Thrift)  
The high cost of living that we are hearing so much about can be cut down remarkably by anyone who wishes to do it. Every apostle of thrift can use his own way of cutting his living expenses, but many a wise person begins by limiting his food supply and thus, at the same time, economizing his own health. For nearly everyone will agree with Miss Annie S. Peck, the world famous mountain climber, who says that most people not only eat altogether too much, but the wrong kinds of food.

Miss Peck is a mountain climber who has had to make a study of her diet. While living in New York City she has been highly successful in getting the greatest amount of strength from the least amount of food at a cost of twenty-five cents a day. Sometimes she eats at a restaurant, where she can get a small steak, potatoes, bread, butter and coffee for twenty cents. But she does much of her own cooking, buying her staple groceries in fairly large quantities, thus getting them much cheaper. Fruit, cereal and coffee from her breakfast. A cake of milk chocolate, a banana or a dish of oatmeal with raisins in it she finds a satisfying luncheon. Her dinner she gets at a delicatessen shop, where she says she can buy enough for fifteen cents to last two days.

Miss Peck has stated that on such a regimen she has kept in excellent trim and that she finds a general supply of nuts, fruits and vegetables with a little meat to vary the monotony of the vegetarian diet to be the ideal for strength and endurance.

A physician in a Chicago sanitarium has beat Miss Peck as a conservator of health on a limited diet. This busy doctor, with much hard work to do, maintains perfect health and strength on two quarts of milk a day—costing sixteen cents. Milk, of course contains all the necessary food properties. But these, of course, are extreme examples. Most of us would not be willing to live according to the standards described, but they serve at least the purpose of pointing out that probably most of us eat too much thus incurring unnecessary expense and inflicting injury to our health.

Another growing extravagance was noted by a member of a Chicago woman's club which is observing the signs of the times. This woman brought up the topic at a meeting of the club a short time ago. She spoke of the one black silk dress our grand mothers had in the days when thrift and economy were more extensively practiced in this country, of how it was kept year after year and worn only for the "best." Then she spoke of her descendants, many of whom are distinctly well off, whose wearing apparel is all of silk. At the conclusion of this practical talk many of the members of the club decided not only to enlist in the thrift army, but to enroll their children as well. For be it remembered that the hope of a thrifty nation to come lies in the children. Teach them thrift above all things else. As John Wanamaker once said: "No boy ever became great as a man who in his youth did not learn to save."

Be thrifty in your every day habits—in little things—and if there are children in the home

## HEREDITY AND EUGENICS

The new science of eugenics has as its subject-matter the question of race improvement through heredity. It obviously suggests a number of topics which bear an important relation to practical problems of every day life. The interest in the subject of eugenics has served to call the older discussions of the relative parts played by heredity and environment in the modification of the race. The question of nature versus nurture has been raised anew.

Only a misguided enthusiast says the Journal of the American Medical Association, would venture to make great claims at the present time for the possible future usefulness of applied eugenics. The doctrines of heredity on which the new postulates are based must first be subjected to critical investigation. The limitations of the practical aspects of eugenics must be clearly formulated and emphasized. It is well enough to maintain in a general way that vitality is partly inherited and partly acquired and that "a sound physical and mental inheritance is a greater asset than the inheritance of extraneous advantages like wealth." Many individuals, however, have assumed that the new science is primarily intended to foster a scheme of general governmental interference with marriage. As a matter of fact, the most earnest students of the subject have at best hoped to promote the gradual establishment of standards in public opinion.

Mr. E. H. Cope, of this city has just returned from an automobile trip to St. Simons Island on the coast of Georgia and he says the most prosperous county through which he passed is Brooks county with Quitman as the county seat. The reason for the great prosperity of this county, he says is that they raise so many hogs. Hog raising is the chief industry. All over the county the farmers have turned to this particular industry and they are growing meat on a big scale. Mr. Cope says that he saw more hogs and finer hogs in the Quitman territory than he ever saw in his life before. As evidence of the money that is being made the farmers all have nice homes, barns, and fences. Mr. Cope is authority for the statement that "down there the farmers are loaning money to the merchants, instead of borrowing from the merchants as they do here. Right here it might be well to mention the fact that Brooks county is in the territory of the Moultrie packing house and this accounts for the farmers going into hog raising on such a large scale. It shows, too, what a packing house will do for any section of country. Brooks county joins Colquitt, of which Moultrie is the county seat. Mr. Cope did not visit Colquitt, but would probably have found the same conditions there and also in the other surrounding counties. He saw enough to assure him that hog raising could be made one of the most profitable industries—Union Springs Herald.

## ALABAMA'S NEW PENAL LAW.

It was a hot time down in Alabama the other day, hot by the mercury thermometer and by the one that marks the rise and fall of political emotions. For in the legislature, assembled at Montgomery, there came up for discussion and passage a bill that will change the penal system of the State.

Alabama's penitentiary has hitherto been under the supervision of a convict board, appointed by the governor. The stories of savage cruelty practiced in the camps that have crept about the State have aroused a violent opposition to this convict board that leaves the prisoners to work in the mines. The new plan of a "prison commission," to be elected by the voters of the State lifts the whole matter from the hands of the governor; and that was where the opposition originated. The theatrical declaration of one member that the act "stuck at the power of the executive" was too transparently partial to awake any enthusiasm. The substantiated stories of terrible tasks imposed on the convicts and fierce whippings when the tasks were not accomplished, were sufficient proof that the executive judgment had not been sufficiently wise to master the situation. A change was necessary and the bill was passed by a vote of more than two to one. A second law forbidding the leasing of convicts is scheduled to pass immediately, the attitude of the members towards this commission bill being evidence of its adoption.

One proof of the wider sweep of humanitarianism over the country is the awakened interest in the criminal class and the desire to reform rather than to brutalize those who compose it. There is nothing that so lowers a man's sense of morals or his respect for authority as inhuman corporal punishment during incarceration. The stories from convict mines and camps are incontrovertible evidence that we send too many of our missionaries abroad and keep too few at home for our own moral perverts who are put in authority over their convicted and helpless fellow creatures.

In this matter of prison reform Alabama has taken a long step forward, and the men who would lobby for the bill deserve the gratitude and appreciation of the State.—Memphis (Tenn.) Commercial Appeal.

### HOW TO DRINK FROM A BUBBLING FOUNTAIN.

"BITE THE BUBBLE."

If improperly constructed or improperly used, the bubbling fountain may be a greater menace to health than the common drinking cup. The other day an inspector of the United States Public Health Service took a seat beside a bubbling drinking fountain in a railway station and watched the way in which it was used. 47 different persons, of whom 11 were men, 22 were women, and 14 were children, used the bubbling fountain. In almost every case the lips were placed almost completely around the metal ball from which the water spouted, and one small boy seemed as if he were trying to swallow it. Several of the men obviously were chewing tobacco. Of the 47 people, 4 were colored, 3 looked as though they might have tuberculosis, and 3 had an eruption upon the face.

Every person using the bubbling drinking fountain should bear in mind that the object of this sanitary device is to prevent the interchange of mouth secretions. When mucous and other matter becomes attached to metal it sometimes requires considerable force to remove it, and this is not always accomplished by a slowly moving current of water. In using the bubbling fountain the rule should be "Bite the Bubble." The lips should not touch any part of the fountain and under no condition should the fountain be used for rinsing the mouth or for expectorating.

Mr. and Mrs. W. C. Flowers who have been touring the west since the 11th of May, returned last night. They visited Texas, and then went to the exposition, returning through the Northwestern States.

### VETERAN BRITISH MAID SERVANT BECOMES A WAR POETESS.

MISS GERTRUDE EMILY CORBY

Miss Gertrude Emily Corby London—Gertrude Emily Corby, who has been the faithful maid-servant of the same London housewife twenty-three years, is attracting attention by her war poems. Her verses are being widely published in British newspapers and admired as breathing the patriotic fervor which the great struggle has provoked in the ordinarily stolid British breast.

Miss Corby is devoting all the money she earns from the sale of her poems to war charities—a striking example of patriotism when the humble wages of an English maid-servant are considered.

A friend suggested that she write poetry soon after the war broke out. She had finished fourteen bits of verse before she had them printed. It cost her ten shillings for the first five hundred. Now the verses pay for themselves.

"A Prayer for Warfare," "London in the Dark," "The Bishop of London at the Front," (this was written in fifteen minutes) and "To Our Tommies are among the best of her poems.

### BROKER CASE RECALLS HARRIS CASE.

(New York World.)

Mrs. Charles Becker was not the first woman who made the coffin of an executed murderer carry her message of revolt and indictment of the law and its agents for taking her loved one. This advertisement was paid for by Mrs. Charles L. Harris, and published in New York papers on May 9, 1893:

"HARRIS—Carlyle Wentworth, eldest son of Charles L. and Frances McCreedy Harris, judicially murdered May 8, 1893."

The plate on the coffin of Carlyle W. Harris, executed for poisoning his school-girl wife Helen Neilson Potts, was marked under instructions of Harris' mother, and reads thus:

CARLYLE W. HARRIS.  
Aged 23 years 7 months and 13 days. Murdered May 8, 1893.

"We would not if we had known." The Jury.

Mrs. Harris, who fought with vigor and determination to save her son through every day of the two years between his arrest and

execution, carried her faith in him and her wrath toward his prosecutors to his grave beyond

Logan McCarty—

A wedding that will be of interest to the many friends of the contracting parties was that of Mrs. Lilla Logan and Mr. H. Floyd McCarty of this city, the happy event taking place in the next yesterday afternoon when the couple and a few friends and relatives motored for the wedding. The ceremony was performed by Rev. C. R. Pilly, former pastor of the LaFayette Avenue Methodist church, this city. Mr. and Mrs. McCarty will go to housekeeping in a few days at South St. Andrews street.

### CHEAPEST

How often you hear that said about shoes, or clothes, or food.

It's much more true when applied to drugs and drug-store merchandise—on most of which far more vital things depend than mere good looks or pleasure.

Did you ever think of that? When health—perhaps life itself—is in question, the best is not only the cheapest—it's the SAFEST.

You always get THE BEST from us—and it's always the cheapest too, because it always gives the BEST POSSIBLE RESULTS.

And it costs you no more—usually less—than elsewhere.

# CALOMEL DYNAMITES YOUR LIVER! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tonic" Starts Your Liver  
Better Than Calomel and You Don't  
Lose a Day's Work

Live up your sluggish liver! Feel  
strong and cheerful; make your work a  
pleasure; be vigorous and full of ambi-  
tion. But take no nasty, dangerous  
calomel because it makes you sick and  
you may lose a day's work.

Calomel is mercury or quicksilver  
which causes soreness of the throat,  
Calomel craves into your bile like  
dynamite, breaking it up. That's when  
you feel that awful nausea and cramping.  
Listen to me! If you want to enjoy  
the most, greatest liver and bowel  
cleansing you ever experienced, just take  
a spoonful of harmless Dodson's Liver

Tonic tonight. Your druggist or dealer  
sells you a 50 cent bottle of Dodson's  
Liver Tonic under my personal money-  
back guarantee that such a powerful  
cleansing your sluggish liver better than a  
dose of nasty calomel and that it won't  
make you sick.

Dodson's Liver Tonic is real liver  
medicine. You'll know it next morning  
because you will wake up feeling fine,  
your liver will be working; headache  
and dizziness gone; stomach will be  
sweet and bowels regular.

Dodson's Liver Tonic is entirely veg-  
etable, therefore harmless and can not  
salivate. Give it to your children.  
Millions of people are using Dodson's  
Liver Tonic instead of dangerous calomel  
now. Your druggist will tell you that  
the sale of Calomel is almost stopped  
entirely here.

## THOUGHTS FOR THE DAY.

I keep six honest serving-men  
(They taught me all I know):  
Their names are What and Why  
and When  
And How and Where and Who  
I send them over land and sea,  
I send them east and west;  
But after they have worked for  
me,  
I give them all a rest,  
I let them rest from nine till five  
For I am busy then,  
As well as breakfast, lunch, and  
tea,  
For they are hungry men;  
But different folks have differ-  
ent views;  
I know a person small—  
She keeps ten million serving  
men.  
Who gets no rest at all!  
Sends 'em abroad on her own af-  
fairs,  
From the second she opens her  
eyes—  
One million Hows, two million  
Wheres,  
And seven million Whys!  
—Rudyard Kipling.

## Something Worth Remembering—

In these days when even the  
multi-millionaires work, work,  
work, and every one is busy with  
the affairs of the world on his or  
her shoulders, according to per-  
son's testimony and opinion, the  
following advice from the pen of  
Helen Bruce Wallace is especial-  
ly good.

Over the desk of a noted busi-  
ness woman who has achieved  
signal success in her own chosen  
profession hangs a flaming, yet  
artistic placard with "Be Brief"

printed upon it in letters that  
must catch the attention of the  
most obtuse visitor to that of-  
fice.

Those who wish to see her dur-  
ing business hours have learned  
that what they have to say must  
be said quickly and to the point.  
Long preambles, beating about  
the bush, side issues or idle talk  
on other subjects than the one  
in question, meet with scant fa-  
vor.

It has sometimes been urged  
against women workers that they  
cannot concentrate; therefore  
they needlessly use up their ner-  
vous energy.

It is not, perhaps, so much that  
they themselves can not bend  
their mind to the case in point,  
but that too many, from a false  
sense of politeness, allow their  
time to be unduly monopolized by  
trivial or outside things.

What is needed is to get the  
value of brevity ingrained in our  
consciousness. We can not all,  
perhaps, post placards of our  
creed, but we can adopt it for  
a working motto, which is soon  
recognized.

It is not necessary to be rude  
in our desire to be brief. It is  
perfectly possible with tact to  
curtail the long-winded or to side-  
track bores without giving of-  
fense.

Do not permit people to mon-  
opolize you at the expense of  
your duties. It matters not  
whether these duties are owing  
to some one else or if your time  
is at your own disposal.

It is quite as important that  
the woman whose sphere is whol-  
ly domestic learns to economize  
her minutes as if she were in  
factory, store or office.

It is not enough to force brev-  
ity upon others. We must prac-  
tice it ourselves. Pottering, tak-  
ing things leisurely, is a luxury  
that few of us can afford. Every-  
one should learn to "hustle,"  
thus only will we be able to get  
time to rest in this age of rush.

Get through with what is to  
be done quickly. This does not  
mean, however, a speed of slight-  
est details or poor work. Train  
yourself to work to read, to  
think, rapidly. It is, after all,  
more or less a matter of habit.  
Some of the quickest workers are  
also the best and surest.

Above all, learn to talk briefly.  
You need not be monosyllabic or  
a woman with little to say for  
yourself. It does preclude long-  
winded, many-detailed talks that  
too often lose their point and al-  
ways are tiresome.

We are coming to know the  
advantage of brevity these days.  
We look for the article of value  
in the jeweler's box, not in the  
bale.

The doctor who diagnoses  
quickly, the minister who hits  
from the shoulder for twenty  
minutes and then stops, the busi-  
ness man or woman who can ac-  
complish the most in the shortest  
time, the housekeeper who is so  
systematized as not to be a drag,  
these are the men and women  
who have achieved success as the  
modern world knows it.

In a word, those who would do  
things these days must learn to  
"be brief."

W. A. Ellis, of Haleburg is in  
the city today on business.

## HAVE DARK HAIR AND LOOK YOUNG

Roads Can Tell When You  
Darken Gray, Faded Hair  
With Sage Tea.

Grandmother kept her hair  
beautifully darkened, glossy and  
abundant with a brew of Sage  
Tea and Sulphur. Whenever her  
hair fell out or took on that dull  
faded or streaked appearance,  
this simple mixture was applied  
with wonderful effect. By ask-  
ing at any drug store for  
"Wyeth's Sage and Sulphur  
Compound," you will get a large  
bottle of this old time recipe.  
This simple mixture can be de-  
pendent upon to restore natural  
color and beauty to the hair and  
is splendid for dandruff, dry,  
itchy scalp and falling hair.

A well known downtown drug-  
gist says everybody uses Wyeth's  
Sage and Sulphur, because it  
darkens so naturally and evenly  
that nobody can tell it has been  
applied—it's so easy to use, too.  
You simply dampen a comb or  
soft brush and draw it through  
your hair, taking one strand at  
a time. By morning the gray  
hair disappears; after another  
application or two, it is restored  
to its natural color and looks  
glossy, soft and abundant.

A post card from Will Hardy  
just marked "Detroit," says he  
saw the harvesting machines at  
work on Sunday, so great was the  
rush to get the crops in. He left  
Chicago Saturday for "Frisco."

## Malaria or Chills & Fever

Prescription No. 888 is prepared especially  
for MALARIA or CHILLS & FEVER.  
Five or six doses will break any case, and  
if taken then as a tonic the Fever will not  
return. It acts on the liver better than  
Calomel and does not gripe or sicken. 25c

# FRANK'S BODY NOT MUTILATED

Houston County  
Must Feed Herself

## THE DOTHAN EAGLE

WEATHER  
Partly cloudy tonight and Wednesday, probably local showers.

DOOTHAN'S POPULATION: 1890, 247; 1900, 2,375; 1910, 7,016; 1920, 20,000. "FOR I HEARD THEM SAY, LET US GO TO DOTHAN."

VOLUME 8

DOOTHAN, ALABAMA, TUESDAY AFTERNOON, AUGUST 17, 1915

NUMBER 200

### FOUND DANGLING FROM TREE NEAR MARIETTA, GA. BODY TAKEN TO ATLANTA ESCORTED BY DETECTIVES

Atlanta, Ga., Aug. 17:—Leo M. Frank's body dangles from the end of a rope tied to limb of tree on Roswell Road two miles East of Marietta, and thousands have gone to view it.

No effort has been made to cut body down.

Frank was spirited from the state prison last night at ten o'clock and carried more than one hundred miles from there over country roads in automobile by mob of seventy-five persons in eight cars.

Body was discovered after eight o'clock this morning. Had been dead for two hours.

No shots fired into body, simply hanging from limb with hands cuffed in front of body. Old wound in neck, cut by William Creen last month, torn by rope. Prisoner was bare-footed, had on only prison pants and shirt. No member of mob yet apprehended.

--BY BRADFORD BYRD.

### Frank's Body Is Found Near Mary Phagan's Grave

By International News Service.

Marietta, Ga., Aug. 17:—The body of Leo Frank bullet-riddled and hanging by neck to a tree two miles from here was found this morning.

Frank was evidently shot to death at Little River but was brought back here and hung to tree in vicinity of Mary Phagan's grave.

Body Not Mutilated.

A later telegram from the International News Service says: kill phrase "Bullet-riddled" and make read "Body not mutilated." Not a shot was fired into the body, which was carried to Atlanta today escorted by a squad of detectives.

### TO TESTIFY IN ROBBERY CASE

Deputies Talmadge May and Ross Hornsby will go to Abbeville this afternoon where they have been subpoenaed as witnesses in the case against two Houston boys who are charged with robbing the home of Albert Norton near Abbeville and securing nearly \$6,000 in cash.

It will be remembered that Sheriff May and deputies stopped the automobile in Dothan several weeks ago searched the boys and found the money.

Mrs. W. R. Griffith of Geneva is visiting Mrs. J. L. Vaughn on South Out street.

Mr. and Mrs. H. R. McClintock have moved into the Holland residence on North Lena street.

### COUNTY DADS IN DILEMMA

The county dads are in a dilemma and it is doubtful if they know what they are going to do or how they are going to do it. For instance, the people of Webb are asking for some much needed road work and asked that a road from this city to that place be attended to next. The other day reports from the western section of the county made a similar plea, they wanting the road towards Midland City and points in that direction improved.

So a large number of farmers from the Bremon Stand and Wicksburg vicinity appeared before the Commissioners today in behalf of their section of the county.

The above being true the commissioners have three ways to

### NO HITCH IN MOBS PLANS

Two Prison Officials Overcome  
By Mob of Twelve Men and  
Frank Spirited Away

(Special to The Eagle)  
Midland City, Ga., Aug. 17:—No news concerning the disappearance of Leo M. Frank. He has reached here up to time of closing this morning. The mob that took him from the State prison here Monday night seems to have been completely enveloped in mystery. The searching parties, scouring the country have been unable to locate any trace of them.

Superintendent J. M. Parker of the prison here and Warden J. E. Smith of the penitentiary gave out statements Tuesday morning concerning the attack on themselves, half dozen men overpowering each man.

The entire prison guard was on the ground and they state the affair was pulled off so quietly, deliberately and determinedly until it was hardly possible to realize such an attack would be consummated.

#### THANKS FRIENDS

Warden Grady Granger of the county jail who has returned from Granger, having attended the funeral of his mother, Mrs. Cornelia Granger at Friendship church yesterday says the family wish to thank their friends for their many acts of kindness and sympathy during the illness and death of Mrs. Granger.

The road crew is now engaged on the Campbellton road several miles from town.

### PASCHAL GETS ONLY HIT IN LIVELY GAME

Cleveland, Ohio, Aug. 16:—Dothan won from Cleveland today 6 to 4 and 11 to 1. Not a hit was made off Boland in the second game until the ninth. Then Leo Paschal, a recruit from Alabama, hitting for Pitcher Higginson, robbed Boland of a vital run by singling.

The many Dothan friends of Ben Paschal, whose single for the Cleveland club was the only hit off a splendid pitcher yesterday, will be glad to know of his good fortune. Paschal was one of the stars of the Dothan team in the Georgia State League this year and his home town is Enterprise. His friends here and throughout this section will watch with interest his career in the major league.

### WESTERN UNION IMPROVEMENTS

The Western Union Telegraph Company will make some important improvements in this city, among which will be the abolition of the present battery system for other and more modern one to be installed. Electricity will probably be furnished by the city's plant.

Aside from this improvement a new set of instruments and a new board will be put in all of which will better enable the telegraph company to furnish good service to local patrons.

### M'TYER WILL LOCATE HERE

New Vice President of Atlanta &  
St. Andrews Bay Railway  
Will Open Office Here  
September 1st

R. A. McTyer of Atlanta, vice president of the Atlanta & St. Andrews Bay Railway company, who came to Dothan today, says that he expects to become a resident of this city by September 1. He will then take up his work with the railroad in earnest. He has made only one tour of the line and had nothing to give out as to the future plans of the company.

Mr. McTyer feels sure that he will get along nicely with the patrons of the road, and with the public at large. He has been connected with several railroad companies, holding a responsible position in each case. Mr. McTyer has a pleasing personality and will no doubt get along well with the people of Dothan and at other points along the line.

The citizens of Lufkin are making an effort to have the line extended from Dothan to that city and in that movement they will no doubt receive the cooperation of Dothan.

#### SCOUTS ARE THANKED

Prof. J. M. Reeves, formerly Scout Master of the Dothan troop, has written a letter thanking the Boy Scouts of this city for the handsome medal they gave him.

It is reported to have been in town yesterday making estimates on the cost of the installation of the proposed battery system.

Manager Land and local officials will no doubt receive the congratulations of the public.

### ATLANTA MACHINIST, NOW IN DOOTHAN, ONE OF FIRST TO VIEW LITTLE MARY PHAGAN'S BODY

Jack Wilson, whose headquarters are in Atlanta but who has been in Dothan the past few weeks rebuilding newspaper press, was one of the first few citizens who viewed the body of little Mary Phagan as it lay in the basement of the National Pencil Factory in Atlanta.

Mr. Wilson says that every one he heard the evidence and kept up with the developments of the noted case, believed in the guilt of Frank. They believed in his guilt beyond reasonable doubt, according to Mr. Wilson.

The evidence has never been published in the newspapers, said Mr. Wilson. Even Tom Watson's Jefferson, known as an unimpeachable journal, has not published all the testimony.

Mary Phagan was reared on the farm of Jim Howell, an uncle of Jack Wilson near Marietta, Ga., and Mr. Wilson is familiar with the developments of the case. He says that he put up some money himself to assist in

bringing a girl from Cincinnati, who gave testimony against Frank.

"The people of Georgia," he says, "were determined to get him."

#### Not Surprised

Mr. Wilson said, "I am not surprised to learn that the people of Georgia have meted out justice to Leo Frank, even though they had to defy the law to do it. After every court in the land had upheld the verdict of the trial jury, and no flaws could be found in the State's case, it remained for one man, John Slaton, then Governor of Georgia, to undo all that work and place his opinion above that of the highest courts in the United States. The result is what many people, throughout the country, have been expecting."

"The oft-repeated statement that the better class of Georgia people did not believe in the guilt of Frank, is untrue. Hundreds of the best and most loyal and influential people of the State, believed in his guilt."

#### A Healthy, Happy Wife

In the greatest inspiration a man can have and the life of the family, yet how many homes in this fair land are blighted by the ill health of wife and mother!

It may be backache, headache, the tortures of a displacement, or some ailment peculiar to her sex which makes life a burden. Every woman in this condition should rely upon Lydia E. Pinkham's Vegetable Compound, made from the roots and herbs, to restore her to health and happiness.

Mrs. J. F. Barnes of Lakeland, Fla., and Mrs. W. S. Holton of Valdosta, Ga., are guests of Mrs. S. J. McTung on East North street.

A good delegation from near Jakes, including Lucius Gilmore and son David Hathorne and son Mr. Fulford, and Mr. Halden, all well known farmers of their section were in town today.

Tom Barrentine of near Webb was here today.

sings, how much farther reaching the thirst for blood and battle if the text of "love" was blotted from the book of life and the world left to its mad device! That would, indeed, be the failure of Christianity, the breaking up of old beliefs.

If this failure had really come then the world would be happier today in its battle din than it was in the days of golden peace. That this is not so, but that on the contrary there is the blackness of sorrow in the old places of light, is proof that the missionaries were right when they said it was the Christians themselves who had blundered.

Today the gospel of peace is just as alluring, the appeal to "love one another" is just as beautiful as it was before the war bugles blew their messages of death and rapine on the tilted plains and sunlit slopes of ravaged Europe.

Christians failed, but Christianity stands unmarred; and it is Christianity alone that, in the end, can reclaim men from their lust of blood and cool the pulse of the world to an even beat. It is not far to the dawning of that day, and when it comes Christians will stand humiliated and ashamed, and the precepts that will lead them back to peace, and on which they will build a higher and a nobler manhood and womanhood, are the same old precepts of Christianity, the spirit of forgiveness and toleration, that Jesus taught when, in the Gethsemane shadows, He said unto Peter: "Put up thy sword."

### ALAS FOR BIRMINGHAM!

"Rental business in Birmingham for the last thirty days has shown an increase of from fifty to one hundred percent over the previous quarter, according to real estate men, and they expect the improvement in conditions to continue throughout the next several months."—Birmingham News.

Alas! Alas! Prohibition has ruined Birmingham. Her streets will grow up in grass, and the owls and bats will inhabit her splendid buildings. At least this would have been the case had not some tender-hearted philanthropists heard of her sad state and came to her rescue with new industries and offerings, through the abundance of charity, to raise the rentals on other property.

The News proceeds with its sad story thus: "Even the large increase shown at present is expected to be made larger when the effect of the opening of so many industries of the last few weeks is felt more keenly by the paydays of the employees."

The fanatical prohibitionists and the vandal legislature should go clothed in sackcloth and ashes, their face in their hands, and their hands in the dust for the ruthless manner in which they have despoiled Birmingham. Their streets are sure to become dilapidated because crime has been so reduced that there are not enough convicts to work the streets. These unfortunates will keep sober, get employment, and on "pay days" the effect will be felt in market stalls, in grocery stores, in dry goods establishments, and in the home. The voices of happy children will be heard in Sunday School, and a song will be in the heart of the contented mother because there is enough bread for the children whose father no longer works the streets. Alas, poor Birmingham! Prohibition did it.

### WROUGHT BETTER THAN HE KNEW.

All who are acquainted with Cardinal Newman's beautiful poem, "Lead, Kindly Light," which has long served as one of the most popular hymns of Christendom, will be interested in a curious, evasive reply made by the author when asked for an explanation of one of its striking couplets, says the Valdosta (Ga.) Times. It is related that in 1880 Dr. Greenhill of Hastings, England, wrote to the cardinal asking him to explain the meaning of those lines of the hymn:

"And with the morn those angel faces smile  
Which I have loved long since  
and lost awhile."

The surprising answer to this surprising inquiry (for the average reader the meaning seems obvious) came promptly and has recently been quoted as follows: "You flatter me by your question, but I think it was Keble who, when asked in his own case, answered that poets were not bound to be critics, or to give a sense to what they had written; and, though I am not, like him, a poet, at least I may plead that I am not bound to remember my own meaning, whatever it was, at the end of 50 years. Anyhow, there must be a statute of limitations for writers of verse, for it would be quite a tyranny, if in an art which is the expression, not of truth, but of imagination and sentiment, one were obliged to be ready for examination on the transient state of mind which

came upon one when homesick or seasick, or in any other way sensitive or excited."

Throughout the English speaking world the average person who sings or reads the hymn probably supposes that it is the "morn" of eternity that is meant, and that the "angel faces" that were "loved long since and lost awhile" are those of dear friends of former years who have passed to the hour whence no traveler returns. Knowing that the poem was written during the author's homeward voyage on the Mediterranean after a severe illness that took him to death's door, Dr. Greenhill seems to have suspected that the thought in mind was not the "morn" of eternity, not the "angel faces" of dead friends, but the "morn" of the "author's" happy return to loved associations on earth and that the "angel faces" were those of the truest friends who would give him a glad welcome. The cardinal's unexpected and evasive reply must have been accepted by the inquirer as conclusive confirmation of such suspicion.

Considered in the light of such a question and such an answer, it would seem to be not at all unlikely that in the couplet quoted the cardinal was thinking of the earth rather than of heaven but later was not willing to confess it, fearing to rob the hymn of much of the spiritual significance which, as generally interpreted, it possesses. If so, we have here another example of a craftsman in the realm of spiritual thought who wrought better than he knew.

### SOCIAL MEETING AT FOSTER ST. METHODIST

The Methodists at Foster Street are making great preparations for a "getting-together" meeting next Wednesday night. Every member with a friend is expected to be present and have a good time getting acquainted with each other.

There will be songs and a musical program to delight the concert, and refreshments will be served. It is expected that two or three more of these meetings will be had during the year.

### STOMACH TROUBLES

**Mr. Ragland Writes Interesting Letter on This Subject.**

Madison Heights, Va.—Mr. Chas. A. Ragland, of this place, writes: "I have been taking Theodor's Black-Draught for indigestion, and other stomach troubles, also colds, and find it to be the very best medicine I have ever used."

After taking Black-Draught for a few days, I always feel like a new man. Nervousness, nausea, heartburn, pain in pit of stomach, and a feeling of fullness after eating, are sure symptoms of stomach trouble, and should be given the proper treatment, as your strength and health depend very largely upon your food and its digestion.

To get quick and permanent relief from these ailments, you should take a medicine of known curative merit. Its 75 years of splendid success, in the treatment of just such troubles, proves the real merit of Theodor's Black-Draught. Safe, pleasant, gentle in action, and without bad after-effects, it is sure to benefit both young and old. For sale everywhere. Price 25c. M. C. M.

## USE COCONUT OIL FOR WASHING HAIR

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain refined coconut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and sleek, bright, fluffy and easy to manage.

Coconut oil is a most economical oil. It costs only a few cents a pound, and a few ounces of it will last everyone in the family for months.

## CARD OF THANKS

Dear Eagle:

Please allow me space in your paper to thank the good people in and around Taylor for their good and kind deeds done to and for us during our little girl's sickness. She has been down 29 days with typhoid fever and was once pronounced by the doctors as hopeless, but she is improving some.

We have had all the help that men, women and children could give. They left their homes for us both night and day. They left their business and saw that we lacked for nothing that the could render us. We know that God is ever with this people. We trust that we will never see one of them in need of our assistance, but that we really go to them and without being called. They were not to send for them; they were there to see what was needed. The family and I haven't words to express our love for these good people. We had the medical aid of Dr. J. C. Bates of Taylor and Dr. S. O. Carls of Dothan, who in our judgment, did all in their power to save our child. We thank God for such good people.

There will be a regular communion of Phylodora Lodge No. 659 this evening at 8 o'clock. Work in the P. C. degree. All visitors cordially welcomed to be with us.

**SULPHUR DRIES UP ECZEMA AND STOPS ITCHING**  
This old time skin healer is used just like any cold cream.

Sulphur, says a renowned dermatologist, just common brim sulphur made into a thick cream will soothe and heal the skin when irritated and broken out with eczema or any form of eruption. The moment it is applied all itching ceases and after two or three applications the eczema disappears, leaving the skin clear and smooth.

He tells eczema sufferers to get from any good pharmacy an ounce of brim sulphur and apply to the irritated parts the ointment you would any cold cream.

For many years common brim sulphur has occupied a secure position in the practice of dermatology and cutaneous affections by reason of its parasiticide, astringent property. It is not only parasiticide, but also antipruritic, caustic and remarkably healing in all irritable and inflammatory conditions of the skin. While not always effecting a permanent cure it never fails to instantly subside the angry itching and irritation and heal the eczema right up and it is often years later before any eruption again appears on the skin.

## COULDN'T SPEND HER MONEY

American Girl in Paris Was Entirely Willing, But the Government Interfered.

The girl who was born under the star of extravagance, whatever that is, was praised for her unnatural economy.

"I don't think" her people said, "of having all that money over there in Paris, and not spending it."

"Don't blame me," the girl protested with unblinking candor. "It was not my fault. I wanted to spend it, but I could not. I couldn't get at it. In spite of myself, I was forced into the paths of economy by the French government."

"At the beginning of the war I solved all the business problems by making my trunk my banker. What money I had was drawn out of the bank and deposited in my trunk. That seemed a pretty safe place, so most of my money was left there when I went to London on a visit."

"I had made my home in Paris with an old school friend. While I was in London her husband died."

"When I came back it was as much as I could do to get into the house. The government had been in and had clamped red seals, fastened to the ends of a piece of tape, across everything about the place."

"My own trunk had not escaped. Right across the lock was a band of tape with these words: 'Liberty, Equality, Fraternity' above and below. They did not represent much liberty for me, they came nearer to representing captivity. For I had run up debts, and the only money I had to pay them with was in that trunk."

"Then came such a bargain sale. It consisted of lace and feathers and jewelry that had belonged to a very fine lady and were going dirt cheap. They were sold at private sale and I was offered first pick of anything I wanted."

"For three months, while all the terrifying entanglements of French law were being unraveled, my money was imprisoned. When my friend's affairs were finally settled and the seals removed, the bargain I coveted had been sold elsewhere, so I had saved my money."

## Pictorial Record of War.

No history that ever will be written about the great world war now raging will be quite as complete and striking as the huge collection of photographs, bearing on every conceivable phase of the conflict, that is being made by the general staff of the German army. Already more than 20,000 reproductions that range from soldiers in the trenches to wounded men in the hospitals have been gathered together and filed away for present or future reference. The collection is constantly growing, and requires a staff of men to keep in order and supervise. This pictorial record of the war is the most complete the government is able, through the rules which it lays down for all photographers who go to the front, to secure a copy of every picture that is made by amateurs or professionals. The general staff, therefore, has been able to pick and choose for its own gallery the cream of everything pictorial that concerns the war, and has acquired, not only accurate and interesting representations, but photographs that in a great many cases are artistic in the extreme.

## In and Out.

"I work," related a friend, to the Cleveland Plain Dealer "in a small, dark and blind factory. Owing to the unprecedented building boom this spring we have been unable to keep up with our orders. People coming into the office and ordering articles for immediate delivery are likely to be disappointed—they have to wait their turn. And all this I tell you as an introduction to a curious example of the peculiarities of the English language which I overheard the other day."

"A man entered the front office in a great hurry. 'Is the boss in?' he asked. 'Is there anything I could do for you?' countered one of our polite young clerks. 'I want to see him about buying some doors at once. Is he here?' 'Well,' explained the clerk, 'he is in his private office, but he's out of doors.'"

## Army of Doctors.

In proportion to its numbers the American army is better than any other for doctors. All private men selected for service of a staff commission are examined. Physicians in the United States are not only available contributors to the medical service. The military branch of the organization of Cuba was organized by a board of American army doctors, which established the truth of the mosquito theory of the transmission of yellow fever. Later on this discovery rendered possible the clearing of the Panama Canal.

## THE BEST

is the

## CHEAPEST

How often you hear that and about shoes, or clothes, or food.

It's much more true when applied to drugs and drug-store merchandise—on most of which far more vital things depend than mere good looks or pleasure.

Did you ever think of that? When health perhaps life itself is in question, the best is not only the cheapest—it's the SAFEST.

You always get THE BEST when you get it always the cheapest too, because it always gives the BEST POSITIVE RESULTS.

And it costs you no more—usually less—than elsewhere.

Marvin Holman of Headland, was in our city on business yesterday.

Mr. G. W. Rollins was an Ashford visitor last night.

Messrs F. L. Fellows and H. M. Kinsey went to Dothan on business yesterday.

Mr. H. J. Ellis was a Dothan visitor last night.

Mr. Sam Jordan went to Dothan yesterday.

Messrs C. C. McArthur and G. H. Lamb transacted business in Dothan yesterday.

The rains throughout this section are becoming more general and while of course it comes too late to be of benefit to the earlier crops, yet it is in time to make the grass grow and our prediction is that there will be a more general effort set forth this year toward saving hay than there has ever been through this section before. Peas and velvet beans are now growing rapidly and in our opinion when the year comes to a close there will be enough feed stuff carefully garnered away to take care of the situation for another year. Houston county is going to feed herself.

Mr. K. J. Todd has returned from Birmingham.

Mr. C. B. Culbreth spent yesterday in our city, and it is reported that he will continue with us through the entire season winding up the business of the Ashford Hardware & Supply Co.

Mrs. H. M. Kinsey visited Dothan yesterday.

We are under obligations to

Mr. L. E. McDaniel for a bag of nice peaches with which he presented us last night.

Mr. W. M. Esby from out on route 2, was exhibiting out in front of the Ashford Supply Co., yesterday some of the finest products of the farm that we have seen this year in the way of peanuts and velvet beans.

Mr. S. E. Pate was an out of town visitor here yesterday.

Mr. C. C. McIntyre is in the country today.

Mr. R. M. Jacobs left on the early train this morning for Montgomery, where he goes to buy a line of goods for the popular concern of which he is a member, the Ellis Drug Co.

Mrs. F. L. Fellows is visiting her father out on the farm this week.

**HOW "TIZ" HELPS SORE, TIRED FEET**
